HSK 6: Old vs New Vocabulary

HSK 2.0 word list (2015 edition) vs HSK 3.0 exam syllabus (Nov 2025)

By Jane's Mandarin Tutor · janesmandarintutor.co.uk
Unofficial study guide, not affiliated with or endorsed by CTI or CLEC. Built from the official public word lists, checked on 5 November 2026. Ask your test centre which format your sitting uses (HSK 3.0 launches worldwide on 13 December 2026).

At a glance

	HSK 2.0	HSK 3.0
Words introduced at Level 6	2500	1794 (1800 entries)*
Total you need for Level 6 (Levels 1–6)	4992	5334 (5400 entries)*

* The 3.0 list gives some words two numbered entries for different meanings (for example 花1 "to spend" and 花2 "flower"). Here they count as one word.

Comparing everything you need for Level 6 (Levels 1–6): 3172 words are in both lists, **2162** words are new in 3.0, and **1820** old words are no longer in 3.0 Levels 1–6.

Words new to you at Level 6 in 3.0: 837. These are in the 3.0 Level 6 list but not in the 2.0 Levels 1–6 list (Section 1). Moving to 3.0 Level 6 also means learning the **1325** new words from the lower 3.0 level(s) (see the Level 1–5 sheet).

How the lists count. In both official lists each word appears once, at the level where it is first introduced. An exam at Level N tests that level plus all the levels below it, so the totals above are cumulative. Words are matched by how they are written. Part-of-speech notes in the 2.0 list, such as 喂（叹词）, are ignored.

Abbreviations: n. noun · v. verb · adj. adjective · adv. adverb · pron. pronoun · num. numeral · m.w. measure word · prep. preposition · conj. conjunction · part. particle · interj. interjection · onom. onomatopoeia · phrase: no part of speech given in the syllabus. A part of speech in brackets, and a level printed like **1（4）**, are shown exactly as the 3.0 syllabus prints them. The syllabus does not explain this notation, but it appears to mean that some uses of the word belong to the bracketed level.

1. New words to learn: in HSK 3.0 Level 6, not in HSK 2.0 Levels 1–6 (837)

1a. Words that were not in the HSK 2.0 lists at all (837)

"Related 3.0 entries" are 3.0 words that appear inside the old word (for example 火车 and 车站 in 火车站), the two halves of an old sentence pattern such as 因为……所以……, or a close replacement chosen by the author (for example 公交车 for 公共汽车). Each one is in the official 3.0 list at the level shown; they are not official equivalents. Words such as 北京 and 羊肉 are simply not listed.
